

## Outdoor Area Lighting for Broad Area Illumination

### SYSTEM OVERVIEW

Cyberlux Outdoor Area Lighting (OAL) delivers the most energy efficient white LED lighting for outdoor area illumination commercially available. Designed to provide ideal light dispersion for outdoor areas, Cyberlux has designed this OAL configuration to flexibly illuminate any outdoor area with either AC or DC power is available.

- Directed white light for broad area illumination of minimum 20' x 20' grid for single light
- Performs for over 50,000 hours without a lighting element replacement
- System operates with 31% more energy efficiency when compared to fluorescent task lighting
- System provides up to 4500 lumens of illumination
- System operates on 120V or 12 - 32 VDC
- Cyberlux P/N 2CP0208 (3 Light Heads), P/N 2CP0212 (2 Light Heads), 2CP0219 (1 Light Head)
